First comes a wave of super-ripe tropical fruit aromas. The succulence hits you, but then the wave slides rather quickly back into the ocean. The finish is clean and straight. Better from 2020 and should be good for another 20 years after that.

Ripe apricot fruit and a considerable succulence and some depth. A well-made, medium-sweet riesling that will be good with spicy food through 2020.

The spritz of natural carbon dioxide really adds freshness to this ripe wine with its honeydew melon character. The finish is pleasantly clean, if not that long or complex. Drink through 2025.
